1. WHAT IT DOES

- ✓ Secure customer login
- ✓ Customer-specific site visibility
- ✓ Satellite map and site list view
- ✓ Search, zoom, and quick asset selection
- ✓ Station detail card with status overview
- ✓ Direct "Open Controller" link to the site controller web page
- ✓ Supports local QR-code access and remote portal access

2. IDEAL APPLICATIONS

3. HOW IT WORKS

4. WHY GREEN PUMP CONNECT

- ✓ Branded customer portal experience
- ✓ Fast deployment with secure web access
- ✓ Designed for fleet visibility across multiple sites
- ✓ Easy pathway to controller access without rebuilding the control logic
- ✓ Clean, scalable platform for distributors and operators
- ✓ Professional presentation for end users and municipalities

5. DISTRIBUTOR ADVANTAGE

Green Pump and Supply is positioned as a premium distributor solution provider with monitoring access layered on top of pump system deployments.

- Strengthen customer relationships with value-added monitoring access.
- Differentiate your offering with a modern, professional portal experience.

HOMA Pump
Distributor Support
Supports HOMA pump project deployments.
